# FAQs

## Who is SiFi Networks?

SiFi Networks is a developer who via it's FiberCity® brand privately funds, builds and operates citywide fiber optic networks enabling Service Providers to deliver next generation applications including superfast internet, video and phone.

## What is a FiberCity®?

A SiFi Networks' FiberCity® is a fiber optic infrastructure that delivers gigabit internet speeds as well as providing the foundation ready to support the delivery of secure high availability of services which a municipality can leverage for Smart City applications and initiatives.

## Are Tax payer dollars paying for this?

No. This is a privately funded project with no tax payer's dollars used.

## Who is the Internet Service Provider?

SiFi Networks works hard to find the best Internet Service Providers for your city. Our aim is to partner with Internet Service Providers who will offer excellent customer service levels, competitive prices and a wide selection of product offerings.

## How is the project being built?

Using a technology called microtrenching. This is a really fast and efficient way of installing fiber with little disruption.

## How do I know when construction is going to happen in my street?

You will receive a door hanger as notice of construction.

## Can I still park on my street during construction?

We kindly ask that you be aware of signs notifying of any parking restrictions that may apply, traffic controls will be in place.

## Are you building on my property?

We will not be building on your property unless you order service, at which time we will work with you to bring fiber to your home.

## How long will the construction last on my street?

The microtrenching machine will move through your street quickly and efficiently. We will then lay the fiber and reinstate the street, all of this will take just a few days.

## I live in a HOA, how do I get connected?

You must speak to your HOA committee to express your interest for a fiber connection, also speak to your neighbors and create demand for your HOA! For further info please contact Travis Nelson - [travis@sifinetworks.com](mailto:travis@sifinetworks.com)

## I live in a rented property, how do I get connected?

It's really important you ACT NOW to get fiber to your building before we pass your property. We need your landlord's permission to gain access, so please, don't miss out, tell your landlord that you want fiber today! For further info please contact Travis Nelson - [travis@sifinetworks.com](mailto:travis@sifinetworks.com)

## How can i sign up?

You can register your interest now at [www.oceansidefiber.city.com](http://www.oceansidefiber.city.com)
